**Subject:** Niagara Falls Boulevard/Holy Trinity Cemetery/738 Upper Mountain Road Overtime Comp Request Pay Period 01 2017

....  
>>>>

Good Afternoon:

Below is the estimated overtime for Niagara Falls Boulevard Site Removal Action, Holy Trinity Removal Action and the 738 Upper Mountain Road Assessment based on the schedule I have worked out with property owners, operators and contractors. I previously submitted a more detailed explanation of work schedule and scope of work at the sites to assist management in justifying work schedules and overtime requests. Thanks. Merry Christmas and Happy Holidays to all!!!

**Travel Date Range: 01/03//2017 through 01/15/2017 (Pay Periods 01 & 02)**

Travel days to/from Site are 01/03/2017 (Pay Period 01), 01/15/2016 (Pay Period 02)

**Overtime Hours Requested for PP 01:**

01/04/2017 through 01/06/2017: Estimated **2 hours** per day (10 hours OT)

01/07/2017: Estimated 10 hours

**Total Overtime Hours Estimated: 20 Hours**

If I am not approved for any overtime already submitted or future OT anticipated, I need to know ASAP. This will change anticipated work schedules and other aspects of the site.

**Justification:**

OSC Daly will be traveling on 12/04/2016 via GOV to Niagara Falls, NY for Niagara Falls Boulevard Site to continue oversight of gamma survey assessment, soil sampling, demolition, removal and staging of contaminated material from designated areas within GNBC structure as well as removal of contaminated material from the surrounding parking

lot/wooded areas. Soil sampling will also be performed at 738 Upper Mountain Road during this time range.

In order to maximize travel time, resources, EPA funding, property owner scheduling and contractor scheduling, all this work will be conducted continuously within this time range. It will require at least nine-9 to 10 hour work days to complete the described work during the regular work week. Work may also be necessary to be performed over the weekend. GNBC closes early on Saturday and is closed on Sunday which will allow for the noise and prevent disruption to the operators and patrons in these specific inside areas during certain activities. EPA is also working with private residences/Town of Lewiston at the Holy Trinity Cemetery Site as well as 738 Upper Mountain Road Site. This work may also require accommodations outside normal business hours and additional overtime for personnel. The document with more specific breakdown of work being performed at the sites was forwarded previously and available upon request.

As in past request, the worst case scenario for overtime is requested but is dictated by the timing of the work and cannot be scheduled exactly.

Regards,

Eric
